# UMC, Universal Marine Center contracts the WiFi Solutions Group to provide WiFi throughout their Mega-Yacht Marina

---

Columbus, OH October 30, 2012

The Universal Marine Center located in Fort Lauderdale, Florida reached out to the WiFi Solutions Group to provide a WiFi Solution in an outdoor environment that was plagued with large Yachts often times blocking view from one end to the other in the Marina. This presented a challenge in design to work around this challenge.

The WiFi Solutions Group surveyed the Marina and designed an outdoor network using Point to Point technology and that would reach the all areas of the Marina.

On October 30, 2012 the Owner of the Universal Marine Center informed the WiFi Solutions Group that their proposed solution was approved and accepted.

Universal Marine Center is a newly opened upscale, refit and repair facility. We can accommodate vessels of every size up to 165 feet in length. Captains are in complete command at UMC. Feel free to bring in any licensed contractor you think is best for your project or use one of our on-site contractors.

We strive to provide distinctive, personalized customer service and our goal is to gain the respect and trust of our long term customers. We welcome your inquiries regarding our competitive pricing, reserving a slip, renovations, and repairs for your yacht or storage and invite you to come take a tour of our marina.

UMC Marina's team of specialists and on-site contractors play an integral role in the entire process. Working with your crew, our on-site contractors are some of the best in the business to ensure that everything is maintained to UMC's exacting performance standards while catering to your specific repair/maintenance/or design preferences.

WiFi Solutions Group is a Systems Integrator that specializes in the Design, Deployment and Management of Secure WiFi Networks for both indoor and outdoor environments. For more information call 1-855-723-WIFI (9434) and ask for sales.
